Vitest | Automated Testing | Application Monitoring |
Incident Response | Production Support

Performance, Analytics, and Growth

Core Web Vitals | Web Performance | Technical SEO |
Structured Data | WCAG Accessibility | Google Analytics
4 | Google Tag Manager | Conversion Optimization | A/B
Testing

Education

Bachelor of Science in Computer Science

University of North Florida
August 2011 - May 2015
Jacksonville, Florida

PROFESSIONAL EXPERIENCE

Absolute Web

Ecommerce Full Stack Developer - Shopify Plus & Hydrogen

August 2024 - June 2026

Miami, Florida | Remote

Architected and developed high-volume Shopify Plus and Hydrogen storefronts using React, TypeScript, React Router, GraphQL, Shopify Functions, Checkout UI Extensions, and enterprise integrations.

Launched eight Hydrogen storefronts on Oxygen supporting 4.2 million monthly sessions and \$85 million in annual GMV. Led storefront migrations, checkout customization, international commerce, large-catalog synchronization, automated testing, deployment, and production operations.

- 8 Hydrogen storefronts launched
- Mobile LCP improved from 3.8s to 1.7s
- 18% conversion improvement
- 120K+ SKUs synchronized
- Release cadence increased from twice weekly to daily

RF-SMART

Senior Full Stack Developer - Commerce & ERP Integrations

July 2022 - July 2024

Jacksonville, Florida

Developed React and TypeScript applications and Node.js integration services supporting inventory, fulfillment, warehouse, NetSuite, and Oracle workflows.

Built resilient processing systems using idempotency, Redis-backed retry queues, validation, reconciliation, SQL optimization, caching, automated testing, and AWS infrastructure.

- 1.5M+ monthly inventory and order events
- 58% reduction in integration incidents
- 45% improvement in P95 response time
- 300+ warehouse and operations users

PROFESSIONAL EXPERIENCE

Split Reef

Senior Ecommerce Expert - Shopify & WooCommerce

March 2021 - June 2022

Jacksonville, Florida

Led technical strategy and delivery for Shopify, WooCommerce, and WordPress storefronts, covering reusable content systems, custom commerce functionality, analytics, accessibility, technical SEO, performance, and conversion optimization.

Modernized legacy Shopify themes to Online Store 2.0 and developed Liquid, JavaScript, PHP, WordPress, and WooCommerce enhancements across product discovery, subscriptions, checkout, payments, shipping, and customer accounts.

- 18 Shopify and WooCommerce storefronts
- \$25M+ combined annual online revenue
- 60% faster merchant content updates
- 11% mobile conversion increase
- 24% organic traffic increase

DiscoverTec

Lead Shopify & WooCommerce Developer

January 2019 - February 2021

Jacksonville, Florida

Led the development of Shopify, WooCommerce, and WordPress storefronts and built custom themes, applications, extensions, and PHP/MySQL integration services.

Connected commerce platforms with CRM, ERP, tax, payment, email, inventory, and fulfillment systems while establishing code review, QA, deployment, and technical documentation standards.

- 20+ commerce storefronts launched and maintained
- Catalogs up to 50K SKUs
- 99.8% successful synchronization rate
- 30% faster new-store delivery
- Three developers mentored

PROFESSIONAL EXPERIENCE

feature[23]
Full Stack Developer

May 2017 - December 2018
Jacksonville, Florida

Built full-stack web applications using React, TypeScript, Node.js, Express, REST APIs, and PostgreSQL.

Developed reusable component systems, role-based access controls, authenticated workflows, third-party integrations, automated testing, Docker-based environments, and continuous-integration pipelines.

- Reduced release preparation time by 35% through modular architecture, Docker-based development, and automated CI workflows.

Hashrocket
Software Developer

June 2015 - April 2017
Jacksonville Beach, Florida

Developed Ruby on Rails and PostgreSQL applications using RESTful services, background jobs, authentication, responsive interfaces, and test-driven development.

Worked directly with clients through pair programming, technical estimation, iterative planning, production troubleshooting, and architecture documentation.
